About me

I am a web developer having expertise in frontend development and exposure to back- end development. I design and develop web applications using the latest technologies to deliver the product with quality code.

Experience

Suven Consultancy and Technology Pvt Ltd Sep 2020 - Nove 2020 Front End Developer 3 months

- Use my extensive experience with front end development to define the structure and components for the project, making sure they are reusable
- Keep the code quality high reviewing code from other developers and suggesting improvements
- Interact with the designer to suggest changes and to make sure the view he has about the design is translated into actual functionality
- Built single page applications (SPA), responsive web design, UI using HTML5 grid layouts, CSS3 media queries where its an expression and can be used to either true or false.

Youth India Foundation 18 Dec 2021 - 3 March 2022 Front End Developer 3 months

- Ensure the technical feasibility of User Interface designs
- Build reusable code and libraries for interface designs
- Manage website development projects from initial design through completion, optimizing all cross-browser and multi-platform compatibility.
- Work closely with programmers and clients to meet project requirements, goals, and desired functionality
- Ensure efficient web development by supporting designers and app developers while resolving website performance issue
- Expand features, refine code, and improve processes, producing smoother operations and enhancing user engagement

Oye Busy Techology Private Ltd. 5 Jan 2022 - 5 March 2022 Front End Developer 2 month

- Developed application to assess JSON and XML for Restful web service using JavaScript and ReactJs.
- Develop new user-facing features Build reusable code and libraries for future use
- Assure that all user input is validated before submitting to back-end
- Produced stunning visual elements of web applications by translating UI/UX design wireframes into code while producing high quality, reusable markup using HTML5 and CSS3

Key Projects / Involvements

- Made a Visualization Dashboard using React JS, d3.js , advanced filter as frontend technologies and stored the data using Nodejs and MongoDB for making API
- Build a Voice Powered Expensive Tracker with the help of an API
- Build a virtual Online Code Editor with the help of React
- Build clone website like Amazon ,Facebook, Spotify with the help of MERN Stack
- Build a Blogging Website with the help of MERN Stack
- Build Corona Tracker with the help of React Hooks , Material UI and Chart Js
- Build Artificial Intelligence React App using ALAN AI, React

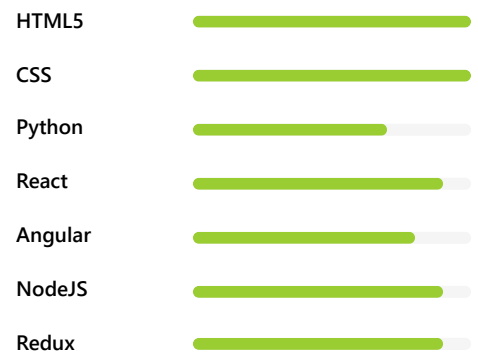

Certificates and Awards

- React Certification Training : Basic to Advanced By Udemy
- Gold Star in Python on Hacker rank
- Full Stack Developer : Infosys
- MongoDB For Python Developers : MongoDB University
- Python Basic to Advanced - Infosys

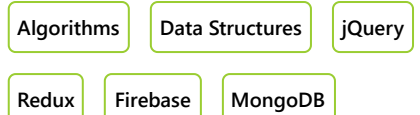

Career Objective

Eager to expand my skill set through external trainings to help boost all major front desk KPIs. Hoping to leverage organizational skills to help ABC Corp introduce time-saving schemes for all executives.
